

From the very beginning of the crisis, Community Health Centers began finding innovative ways to provide preventative and primary care to patients. Community Health Centers serve as the beacon of strength, service, and care in their communities. As we commemorate the lives lost in the pandemic and celebrate the future of Community Health, let's shine a light across the country that will embody the future of primary health care for underserved populations.

Every year during NHCW, Sea Mar Community Health Centers celebrates the work and services our own Health Centers provide to our communities by hosting a variety of FREE activities, screenings, resources and more.

Find your local Sea Mar Medical Clinic below and see what we have planned for the week!

KING COUNTY
